

- HSML offers both on-level and honors sections in Algebra I, Geometry, Algebra II, and Pre-Calculus.
- Students can take Geometry and Algebra II concurrently, this is a rigorous option for highly motivated students.
- Honors course placement is decided by the parent/student. Students can move between on-level and honors each year.
- See Consumer Math and Statistics prerequisites noted on the side.
- High School Math Live recommends the following sequence for high school math live courses.
